The Founder

 Martin
Wimmer**Martin Wimmer****Founder & CEO**

Martin is a licensed pilot and aviation enthusiast who founded Aviatr to solve a problem he experienced firsthand — the fragmented landscape of European aviation education. With a background in software development and a passion for flying, he built Aviatr to be the platform he wished existed when he started his own pilot journey.

About Aviatr

BOILERPLATE (SHORT)

Aviatr is the integrated digital platform for European pilots, connecting aspiring and licensed aviators with certified flight schools, aviation medical examiners, and the tools they need to advance their careers — all in one place.

BOILERPLATE (LONG)

Aviatr is the integrated digital platform for European pilots. Built on the EASA ecosystem and available in 13 languages, Aviatr connects pilots with certified flight schools (ATOs) and aviation medical examiners (AMEs), equips them with tools and training resources to advance their licences, and provides a digital logbook with live flight tracking. Founded in 2022, Aviatr serves pilots at every stage — from first flight school search to final ATPL hour.
